## Skills

- Proficient in building dynamic web applications using React, a popular JavaScript library for building user interfaces.
- Experienced in using Next.js, a React framework that facilitates server-side rendering, routing, and other features for building high-performance web applications.
- Skilled in utilizing Three.js, a JavaScript library for 3D graphics, to create interactive and visually appealing 3D web experiences.
- Proficient in styling web applications efficiently and consistently using Tailwind CSS, a utility-first CSS framework.
- Familiar with implementing and customizing content management systems, which can include platforms like WordPress or custom CMS solutions.
- Experienced in working with MongoDB, a NoSQL database, for data storage and retrieval in web applications, including CRUD operations and database design.

# Oscar Cheruiyot Maritim

## Fullstack Developer

I am a highly skilled web developer with a strong foundation in building cutting-edge web applications. My expertise lies in several key areas, making me a versatile and effective developer. I excel in leveraging React and Next.js to create dynamic, high-performance web applications. My experience includes crafting user-friendly interfaces and optimizing applications for speed and scalability. With a keen eye for detail, a commitment to staying up-to-date with industry trends, and a proven track record of delivering high-quality projects, I am dedicated to creating exceptional web experiences that meet both user expectations and business objectives. I am excited to collaborate on innovative projects and contribute my skills to drive digital success.

## Work History

### Junior Web Developer 01/2022 - 07/2023

#### Orion Developers, Nairobi

- Developed abilities in cutting-edge frontend technologies including Reactjs, threejs, and tailwind css
- Created custom websites by harnessing HTML, CSS and JavaScript skills.
- Enhanced front-end performance through image optimization by harnessing the power of Nextjs
- Tackled bugs by methodically eliminating software errors and implementing action to minimize future incidents.
- Monitored technical performance of internal systems and escalated concerns.
- Assessed successes and failures of technical deliveries to promote seamless integration in future advancements.

### IT Specialist 09/2018 - 10/2021

#### Blue Tech Solutions - Nairobi

- Supported development of remote working hardware and software combined solutions.
- Developed step-by-step instructional material to help train and support employees in company systems.
- Conducted IT onboarding of new starters and IT off-boarding of leavers.
- Conducted trend analysis, identifying recurring infrastructure faults and creating permanent fixes.
- Completed company system upgrade to increase end-user efficiency.
- Educated employees on cybersecurity best practices to reduce number of cyber incidents.

### ICT Intern 09/2017 - 03/2018

#### Tenwek Mission Hospital

- Planned and executed the selection, installation, configuration and testing of switches and routers.
- Set up all the machines with the necessary soft wares to be used in the facility
- Employed cybersecurity knowledge to establish stable connections and firewalls.
- Verified system stability and integrity by conducting daily testing and monitoring.
- Maintained up-to-date software inventory, managing vendor hardware and software licensing to guarantee compliance.
- Assessed existing hardware and software to determine viability and recommend improvements.
- Maximised departmental efficiencies by creating and updating technical support documentation for systems and applications.
- Conducted in-depth network reviews and tightened security policies to monitor access and prevent cyber threats.

## Education

Fullstack Programming 03/2018 - 07/2018

Moringa School of Programming, Nairobi County

Bachelor of Science, Computer Science 09/2013 - 08/2017

Chuka University, Kenya

Kenya Certificate of Secondary Education 2009-2012

Kericho High School

## Interests

- Researching new computer technologies so as to be at par with trends
- Helping other developers in debugging in different discord channels
- Playing chess and scrabble to jog my mind
